ABOUT ME

Hi, there!

I'm Cara, a frontend engineer who transitioned from a diverse background. I'm passionate about learning and effective communication. I possess the skills to discuss API specifications with backend engineers and explore the possibilities of implementing design concepts with UI/UX designers.

WORK EXPERIENCE

2023 - 2024

天下雜誌股份有限公司 | Taipei, Zhongshan District
frontend engineer

- Commonhealth website maintenance
- Front-end technical support
- Commonhealth website's book pages version update

2021 - 2023

悠達天下股份有限公司 | Taipei, Daan District
frontend engineer

- I have experience in handling various tasks including page redesigns, security optimization, website maintenance, and adding new features.
- I've revamped the shopping cart page using Vue2 and concatenated Linepay for payment processing.
- I've upgraded to Vue 3 with TypeScript to include additional checkout options through Tappay payment gateway.
- On the B2B web pages, I've collaborated with the internal team to enhance functionality and implement page redesigns as per company requirements.
